

# NaTHNaC reminds Yellow Fever Vaccination Centres (YFVC) to complete the Annual Return (AR)

All YFVC who remained designated during 2016, are reminded that the AR of yellow fever vaccine use must be submitted by the extended deadline of Friday, 17 March 2017.

## WHAT THE SURVEY INCLUDES

The [electronic return form](#) consists of short questions, and can be completed very quickly if you have the following information to hand:

- YFVC identifying number
- Type of YFVC
- Number of vaccines given (where known, number given in specific age ranges)
- Number of booster doses given and reason
- Detail of serious adverse events reported to Medicines and Healthcare Products Regulatory Agency (MHRA)
- Number of under utilized yellow fever vaccine

## HOW THIS HELPS NaTHNaC

Your responses will help inform us about yellow fever vaccination practices in England, Wales and Northern Ireland. All data will be anonymised and statistics from individual YFVCs will not be published. The provisional anonymised data from the collated annual returns will be published on the Yellow Fever Zone website.
